

Fig. 1

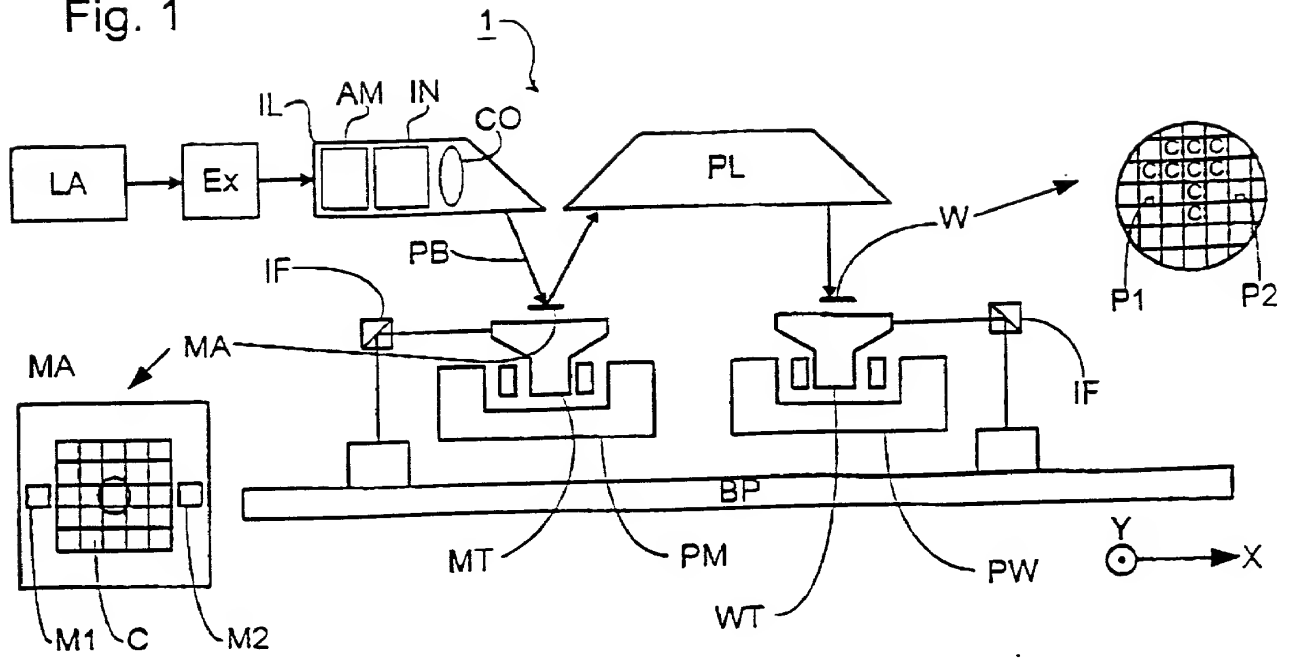

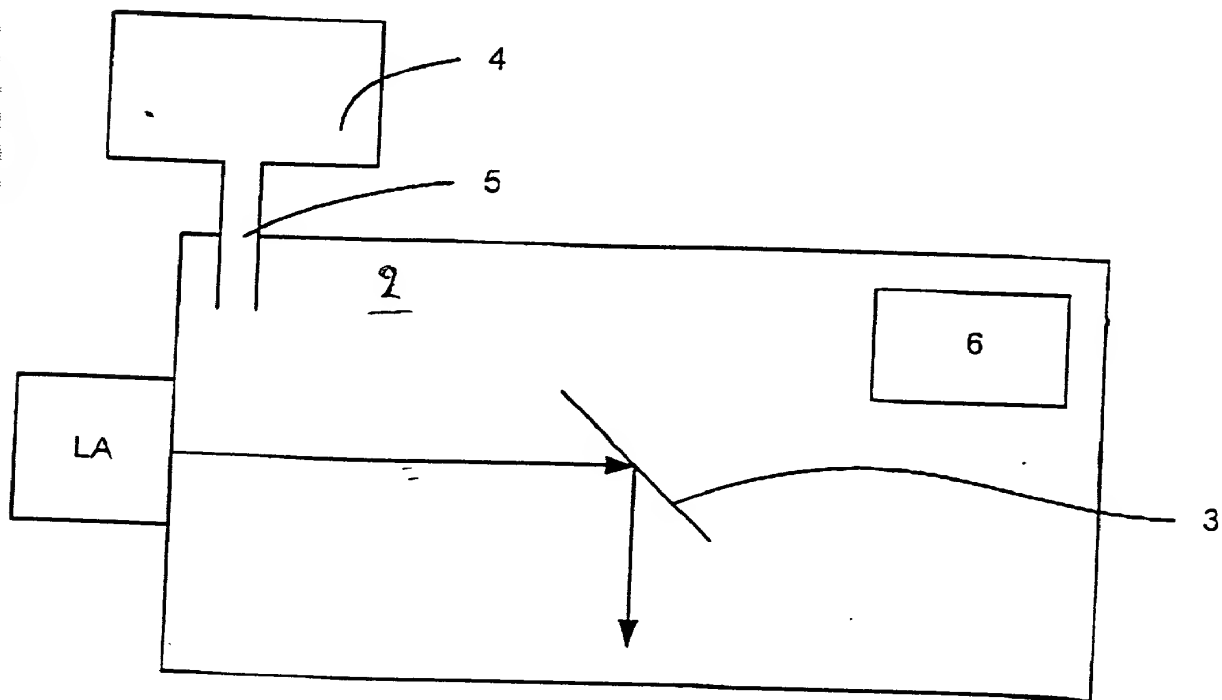

Fig. 2

The diagram shows a mechanical assembly. A large rectangular frame (2) contains a smaller rectangular component (6) in its upper right corner. A vertical rod (3) passes through the frame, with an upward-pointing arrow indicating its direction of movement. At the top of the rod is a horizontal bar (4). A curved line (5) connects the top of the rod to the horizontal bar. A rectangular component (7) is attached to the bottom of the rod. A label 'A' is positioned to the left of the frame.
